iD Tech Camps Diploma

Justin J. O'Boyle

Congratulations on your graduation from iD Tech Camps.

July 27, 2012 at Seton Hall University: Game Design for iPhone & iPad I

A note from your Instructor: B.J. Jansen

Justin quickly became my de-facto Teaching Assistant this week. He picked up the topics and software quickly. He was also extremely selfless with helping the other students who needed his help. His game, "Invasion," is a very inventive and creative game. Justin did excellent work this week, especially with helping other students who needed help with their projects. His attitude throughout the camp was great!
